AT 22, PATERNOSTER ROW.

INDEX.

ABERDEEN Royal Infirmary Corporation, 563
Absolute units of measurement, by W. Moon, 549
„ value of the magnetic elements, 451
Accident at a private station, 405
„ caused by electric lighting at Paris, 564
„ Fatal, at an electric works, 24
„ in Walbrook, 438
Accumulator, Efficiency of, 405
„ Note on Chemistry of, 581
„ and horse traction, 91
Accumulators, Gadot, 426
„ Gibson, 438
„ Use of lead amalgam in, 756
Action of electricity on microbes, 40
Addenbrooke, G. L., on the relative cost and economy of high and low pressure central stations, 688
Advertising by electromotor, 275
Ageing of wine, 310
Agreement between electro-magnetic unit and the electrostatic unit of electricity, by H. Pellat, 555
Agriculture, Electricity applied to, 20, 82
Agricultural Hall Exhibition, 556
Air insulation, 676
Alleged primary battery swindles, 81
Alloys, Improved, for resistance coils, 742
„ of aluminium, A new industrial process for making, by electrolysis at high temperatures, 784
Alternate current condensers, by J. Swinburne, 434
„ „ potentiometer, by G. S. Moler, 751
Alternating current influence machine, by J. Wimshurst, 574
„ „ motors, 291, 611
„ „ „ Designs of, by A. Weston, 491
„ currents of very high frequency,
„ „ Phenomena of, by Nikola Tesla, 296, 431, 648, 723
„ „ by Elihu Thompson, 485, 649
„ „ of high frequency, Tesla's experiments with, 723, 727
„ „ by Charles Steinmitz, 485
„ electromotive forces, The striking distance of 265
„ transformers, 321
„ electric arc between a ball and a point, On the, by Edward L. Nicholls, 164
Aluminium, 676
„ Electricity in the production of, by M. G. Farmer, 818
„ by C. E. Guillaume, 603
„ Notes on the manufacture of, 803
„ Properties of, by C. M. Hall, 746
American electrician attacked in Italy, 695
„ Institute of Electrical Engineers, 220
„ National Electric Light Association, 23
„ telephone industry, Statistics of, 484
Amphibian, A new, 24
Analysis (elementary) by a new electro-thermal method, 646
Ancient history, 484
Andrews system of concentric wiring, 616
„ „ and the fire offices, 710
Anglo-French Postal Convention, 54
„ „ telephone cable, 68
„ „ „ line, 69
Animal magnetism or hypnotism, 1
Annual conference of telegraph clerks, 738, 763
Another early granular carbon rheostat, by A. M. Tanner, 716
„ Post Office scandal, 118
Appeal on behalf of Mrs. Frank Thorne, 439
Appleton, Burbey and Williamson, 85
„ „ „ „ *v.* Mason, 663
Appleyard, Rollo, on electrostatic commutator, 454
Arc lighting station, The largest, in the world, 69, 70
Argumentum ad hominem, 663
„ ad judicium, 548
Arnall, T., on the conversion of mechanical into electrical energy, 269
Atlantic cable rumours, 53
Atlas accumulator, 207
Attack upon the dissociation theory of Arrhenius, 389
Augmented solubility of electrolytes, 619
Australia, Electrical news from, 357
Austria-Hungary, Communications from, 134, 190, 292, 422
Austrian royal train, 311
Automatic lamp lighter, 306
„ and multiplex telegraphy, 823
Award, 275
Ayrton, Prof., 731
„ „ Lectures by, 85
„ „ J. Perry and W. E. Sumpner, on quadrant electrometers, 764

BABCOCK & Wilcox boilers in France, 310
Bailey, G., Toms & Company, 118
Balata gum, 708
Barbieu, U., on the heating of bright freely extended copper wires by current, 233
Barker's Improved Insulator, 371, 438
Barraclough & Company, 215
Barstow, G. W., on operating sub-stations by the motor-dynamo system in Brooklyn, 690
Bath and the electric light, 179
Bath Electric Light Works, 54
Batteries, E.P.S., 824
Battery litigation, Storage, 469
„ New models of the oxide of copper, by M. F. de Lalande, 772
„ transformers, 257, 322
Becquerel, Edmund, 695
Beginning of the end, 351
Behind the age, 437
Belgium, Lightning in, 115
Benefits of contention
Benham & Froud, 214
Bennett, A. R., on "Electrical Navigation" 461
Bergmann's new connector for electrical conductors, 91
Berlin, Telephone in, 54
„ Electro-technical Society, 180
„ -Munich telephone cable, 439
Berly's Electrical Directory, 500
Bessolo, A., the original inventor of the transmission of force by electricity, and of an electric railway with overhead conductor, by A. M. Tanner, 779
Biggs, C. H. W.—His book, 337
Binary electrolytes, Difference of potential between two dilute solutions, 6
Birmingham and electric light, 82, 533
„ Exhibition, 466
Blackburn, A. B., on the design of multipolar dynamos, 524
Blackburn, A. B., on dynamos, the consideration of the chief features which regulate their application; read before the Manchester Association of Engineers, 141, 173
Bleaching, Electrical, 55
Board of Trade requirements, 439
Boiler and engine tests, 437
Bois-Reymond, A. Du, on deductions and experiments on rotary currents, 711
Booth, W. H., and Lea, F. B., on rope gear for electric light work, 810
Boult's Comprehensive Wire Table, 116
Bournemouth, Electric lighting at, 148, 500
Bradford electric lighting, 179
„ trams, 339, 371
Bradner adjustable hanger, 693
Bretel vegetable boiler fluid, 597
Bright, Charles, on electrical conductors for mines, 358
Brighton electric lighting, 82, 115
Bristol and electric lighting, 81, 148
British Insulated Wire Company, 150
Brooker, A., and Slingo, W., storms and telegrams, 101, 137, 167, 203, 232
Brown, A. S., on electricity in the production of aluminium, 667
Brush's, Mr., windmill dynamo, 14
Brush Electrical Engineering Corporation, 533
Brushes for dynamos, 119
Buda-Pesth, Telegraph and telephone in, 10
„ „ Prolongation of the gas agreement at, 262
„ „ electrical tramline and the Hungarian Minister of Commerce, 476
„ „ Electric lighting, 806
Buffalo Electric Railway, 210
Bunsen-burner gas flame, The electrical conductivity of salts in the, 202
Burning of Japanese Parliament houses, 406

CABLE AND CABLES—
American manufactory in France, 310
Anglo-German cables, 309
Atlantic cable rumours, 53
Barcelona and Marseilles, 598
Berlin-Munich telephone cable, 439
Cable works at Calais, 547
Commercial Cable Company, 22, 436
Concentric wiring, 548
Cost of repairing, 436
English submarine, 290, 421
First cable made in France, 500
French Trans-Atlantic, 642
French West Indian, 53, 117, 467, 597, 662
Halifax new, 693
India-rubber core in cables, 360
Induction in multiple core cables, by P. C. Dresing and K. Gulstad, 589, 643
items, 757
manufacture in France, 438
New Franco-Danish, 788
New Pacific Company, 150
New Peru and Chili, 119, 214
New schemes, 227
New service, 790
Our cable communication, 225
Pacific, 54, 276, 339
Pouyer-Quertier Cable Company, 693, 710
rates and the Pacific scheme, 21
Recent interruptions and repairs to submarine cables and landlines up to February 25th, 1891, 310; to April 25th, 1891, 629; to May 25th, 1891, 725
Silvertown, 790
South American traffic and French cables, 629

CABLE AND CABLES—*continued.*
Spanish Morocco cables, 274, 339, 726
Submarine Trust 439
Submarine cables of the world, 725, 758
Submarine cables, Life of, 595
" manufacture in France, 694
Testing, 405
Underground, 85, 438
" by Stuart A. Russell, 332, 378
" telephone, 470
West Indian, 23

Calais and the electric light, 189
Calculations on electrical shocks from contact with high pressure conductors, by P. Cardew, 636
Cambridge, Electric lighting of, 53
Camera Club, 439
Campbell gas engine, 725
Candle power, 98
Cantor Lectures, 371
Cardew, H. W. D., M.R.C.S. Eng., on "The value of diminished electrical resistance of the human body as a symptom in Graves's disease," 325
Cardew, P., on A few calculations on electrical shocks from contact with high pressure conductors, 636
Cardew's earthing device, 181
Cardiff Drill Hall fire, 195, 248
Carpenter, W. Lant, Death of, 8
Carpet factory, The electric light in a, 20
Carty, J. J., on inductive disturbances in telephone circuits, 462
Cause of fire unknown, 179
Caution, 372
Censorship of telegrams in Germany, 563
Centenary of the French patent law, 630
" " birth of Michael Faraday, 758
Central Institution, Dismay in the, 100
" " lectures, 563
Central London Railway and the Purchase clauses, 163

CENTRAL STATION—
in Christiania, 568
Deptford, 591
of the St. Pancras Vestry, 22
central light and power station, 228
Central London Railway, 309, 355, 356
high and low pressure, 694
installation materials for central stations, 327
new central station, 676
Relative cost and economy of high and low pressure central stations, by G. L. Addenbrooke, 688

Chance for Elmores, A, 53
Change of form affecting a magnetic field, by A. E. Dolbear, 396
Channel telephone and the Press, 468
Charles's brush holder, 745
Change of address, 83
Chatham provisional order, 180
Chelmsford, Failure of electric light at, 85
Chelsea Company *v.* Mr. Chamberlain, 21
Chemical action, is it affected by magnetism, 554
" Society (Jubilee of), 315
City, Electric light in the, 20, 48, 66, 82
" and Guilds of London Institute,
" Commission of Sewers, 276

CITY NOTES—
American Thomson Electric Welding Company, 313
Anglo-American Telegraph Company, 121, 152, 184, 313, 504
Anglo-Portuguese Telephone Company, 760
Bedford Electric Light Company, 633
Birmingham Electric Supply Company, 728
Brazilian Submarine Telegraph Company, 344, 568, 600, 728
Brighton and Hove Electric Light Company, 376, 407
Brush Electrical Engineering Co., 281
Caledonian Telephone Company, 760
Chelsea Electricity Supply Company, 631
China and Japan Telephone Company, 760
City of London Electric Lighting Pioneer Company, 217, 696
City and South London Railway, 182, 249, 278, 792

CITY NOTES—*continued.*
Commercial Cable Company, Vice-President resigns, 89
Consolidated Telephone Construction and Maintenance Company, 664, 695
Cuba Submarine Telegraph Company, 216
Direct Spanish Telegraph Company, 313, 344, 375, 376
Direct United States Cable Company, 56 89, 121, 504
Eastern Extension, Australasia and China Telegraph Company, 473, 503, 536
Eastern Telegraph Company, 86, 376, 569
Edison and Swan United Electric Light Company, 217
Electrical Trade Section, 789
Electric Construction Corporation, 313
Electric and General Investment Co., 759, 793
